

Kaiser Permanente is California’s largest not-for-profit integrated health care delivery system. Since our founding in 1945, our mission is to provide high-quality, affordable health care and to improve the health of our members and the communities we serve. We currently serve more than seven million Californians. Our focus is on our members’ total health. Their care is guided by a personal physician, which our members select from a team of 14,000 primary care physicians and specialists. Our health care teams are supported by a world class electronic medical record system, KP Health Connect, industry-leading technology advances and tools for health promotion, disease prevention, state-of-the-art care delivery and world-class chronic disease management. Kaiser Permanente consistently ranks first among California health insurance companies for both quality of care and member satisfaction and we are eager to bring that experience to the millions of Californians who can now afford health coverage through Covered California.
